PROFESSIONAL EXPERIENCE

Interface Developer – Linux Magic Inc – May 2021 / Current

The company offers webmail and hosting services for medium and small isp's. I work on the maintenance and improvement of the user interface of the three current webmail clients, and the user and admin modules. I also work on the creation of new product modules for users and administrators.

Technologies: PHP, jQuery, JavaScript, HTML, CSS, SVN, RoundCube.

Product Manager – Positivo – February 2019 / April 2021

Positivo is a Brazilian company that manufactures and sells technology products in the retail market and to suppliers. I was responsible for the operation of the e-commerce and marketplace, along with the sales strategy.

Product Manager – BGH – March 2015 / October 2018

BGH is a company that manufactures home appliances and electronics in Argentina. I was responsible for managing IT and gaming product lines for the retail channel.

EDUCATION

Full Stack Developer – Digital House

Technologies: HTML, CSS, JavaScript, Express, Node Js, MySQL, MongoDB, React, Scrum, Git.
